

Met at 09/10/2023 at 2:00 pm to 4:00 pm

We met to draft up our project proposal over our craftVerify idea. Working through the features we all communicated and drafted our features and the rest of our proposal. We plan to turn this draft in and build off any comments professor Vong has on our proposal.

Everyone in the group was assigned and participated in the drafting of the proposal during our team meeting.
